

**T**he Spirit Bear of the Central and North Coast of British Columbia. Prominent in the oral traditions of the First Nations of the area, it is very elusive. We were lucky enough to see one pass within feet of us three times, as he strolled along the edge of the salmon stream. 30%

**T**he Kodiak Bear of Alaska. Kodiak Island where the bears surf the ocean shore for incoming salmon. Mothers with cubs patrol the shore within feet of our cameras.

Kodiak bears are bigger than Brown/ Grizzly and are only found on this island in Alaska.
